**Topic: College Republicans and How They Are Preparing for 2024**

Berkeley College Republicans is one of the largest and most active student run organizations at UC Berkeley and is the largest College Republican organization in the state of California. Find out how they plan to strengthen their club and strategize for 2024.

Mark Basta, our speaker, is a sophomore at UC Berkeley majoring in Political Science and Data Science with a concentration in comparative politics and public policy.

Mark's family moved to the U.S. from Egypt, escaping religious discrimination in an economically failing state to pursue the 'American Dream' after the Arab Spring. He has been involved in state and local politics as the Vice Chairman of the California College Republicans and the President of the Berkeley College Republicans, fighting on Berkeley's campus against the campus' indoctrination efforts and leftist agenda. He has experience in political science research with Coptic Solidarity in Washington DC and the Institute of International Studies/Center on the Politics of Development at Cal Berkeley.

### President's Report

#### We are Working Toward a Champion Mindset

"Never doubt that a small group of thoughtful, committed individuals can change the world. In fact, it's the only thing that ever has." - Margaret Mead

**Email It In:** Please email me, [mary.grove@icloud.com](mailto:mary.grove@icloud.com), your ideas and goals for 2024 for our MRWF club.

What would you like the club to be involved in and working on as our 2024 events and mission?

**Goals:** Goals change and we are prepared for your new vibrant goals that will light up our Club in 2024.

*A goal not set is a goal not met.*

Our November speaker, Mark Basta, is all about goals. He will be sharing his club's goals with us on November 15<sup>th</sup>. Let's share some of ours with him. Because the Primary Election is so early (March 4, 2024), we will have a lot to share to ensure our election goals are moved and met. The Primary Election gives all of us only 3 months, December, January and February, to work hard and reach our personal and club objectives related to it.

**Back to the idea of a 'Champion Mindset'**, the world has changed rapidly, and we need to be prepared to access peace, security, and quality of life issues with new, dynamic skills.

Here are two points of inspiration that I would like to share with you. These are works to enjoy and which promise inspiration:

First, read/listen to [The New Roaring 20's](#) by Paul Zane Pilzer (March 21, 2023). The author provides a clever and clear viewpoint and thoughtful context for contemporary and future trends. You will find this book to be an ingenious and entertaining guide to an exciting and prosperous future.

Second, [Ordinary Angels](#) is a movie that will be released on February 23, 2024. It is a true story about a woman who finds a renewed sense of purpose when she single-handedly rallies an entire community. Watch the trailer:

<https://www.youtube.com/watch?v=R1vn8kPgCYA> Please join me on the opening weekend of this movie; let's create a gigantic audience on the release date weekend to help ensure wide distribution across the country and the world!

Let's all work together to champion a fantastic destiny!

*Mary Grove, President*

### Membership Report

It seems like the world is blowing up around us. The Middle East conflict is horrendous and an affront to every civilized person. In learning about survivor techniques, the use of Safe Rooms surfaced, and my mind wandered. Not that I want to live where one is necessary, but I began to wonder, do you ever wish you had a safe space or room? Somewhere quiet and protected away from the constant daily pressures, political bickering, the Trump hatred bias, and the Biden coverup. And let's not forget the ever-changing LGBTQ+RSTUV, WOKE, and BLM demands. And I get a bit confused how every candidate from every state in the U.S. is the one that the Democrats are most trying to defeat, but my \$500, or even \$35, is the answer to seeing that Chuck Schumer and Nancy Pelosi no longer hold the key to our future. Maybe my safe room will also have a bottle of wine!

Okay, a bit of sarcasm, but think, during this messed up period of time, with an election on the horizon, membership in our Marin Republican Women Federated offers us that escape. Activities with like-minded people, a chance to vent about whatever is currently affecting us in D.C. and Marin, and to feel more connected.

**It's time to renew dues for 2024.** It's easy. Go to our website [www.marinrepublicanwomen.com](http://www.marinrepublicanwomen.com). Click on JOIN NOW at the top of the page. Open the dropdown membership form, fill it in, and proceed to the payment info. Your early renewal is appreciated.

*Elise Vitale, 2nd VP Membership*

**Americanism**

#### Anatomy of the Administrative State - Part 2\*

After defining the three equal, separate branches of government (in Part 1 last month), the author reasoned that the "separation of powers" is the foundation of our rule of law and keeping them apart protects us. To continue — Slowly but inexorably, the legal ground shifted beneath our feet. Separation of powers eroded. We moved away

from the rule of law back towards rule by fiat. [Today] control resides not in a monarch but in a professional managerial aristocracy.

Legislatures delegate rule-making authority. They empower the administration to make regulations, orders, policies, and decisions of all kinds. The administrative branch, not the legislature, is now making the bulk of the rules.

Instead of separation, we have concentrated power —The Unholy Trinity of the Administrative State. The three branches are all on the same page, cooperating to empower the state's management of society.

COVID lockdowns restrained people against their will. Vaccine mandates take medical decisions away from individuals. Such policies were wrong for the coercion they imposed, not the goals they failed to achieve,

Most public policy, good or bad, is illegitimate. No doubt there are subjects—foreign relations, public infrastructure—where government policy may be necessary. But these are exceptions to the general rule: people's lives are their own.

\* [From the Brownstone Institute](#) and adapted from a chapter in a new book by Bruce Parry, [Canary in a COVID World: How propaganda and censorship changed our \(my\) world](#), edited by C.H. Klotz.

### Satellite Club – Friday October 27th

What a way to usher in the 2023 holiday season! We all had a hauntingly great time at Jay and Fred Kist's home. The ghosts and goblins were out in full force. We had good food to share, as well as Jay and Fred's beautiful home. It's not on "Bellevue" (beautiful view) Street for nothing. It is always fun to share different dishes and taste the foods of other countries such as sushi, Italian meatballs, and Mexican tacos. We are a nation of immigrants and their foods are always great contributions.

November brings Thanksgiving and there will be no Satellite Club Event. Our next gathering is our Christmas party on Sunday, December 3, 12:30pm – 3:30pm at the Loch Lomond Yacht Club.

Please mark your calendars. More details will follow.

### Legislative Report

By Ruth Holly – MRWF Legislative reporter

**SB-770 Health Care:** Unified health care financing (Senator Scott Wiener and Senate Majority Leader Mike McGuire) signed by Governor Newsom requires the appointed Secretary of the California Health and Human Services Agency to negotiate a waiver with the Federal Government to allow California to create a single payer health care system. The state wants to consolidate the healthcare funds already received from the Federal Government for Medicaid, the State Children’s Health Insurance Program, Medicare, and the Affordable Care Act. The ultimate goal is to provide state controlled “equitable” medical services to all persons residing in California independent of financial, employment, and immigration status. Federal funds would be supplemented with a progressive income tax.

*Socialized medicine as proposed in this bill is a great example of Marxist (collectivist) philosophy. Health care would be granted by the state with preferences given to favored groups. The cost would be born unequally using the coercion of law and freedom of choice would be eliminated.*

**California Proposition 1,** Behavioral Health Services Program and Bond Measure is a legislatively referred state statute which will be on the March 2024 ballot. The proposition would change the name of the 2004 Mental Health Services Act to the Behavioral Health Services Act and add substance abuse disorder to the conditions covered. The proposition mandates that 30% of the 1% tax on those with an income of over \$1 million be used for housing. The commission size would be increased from 16 to 27 unelected voting members. The proposition issues \$6.38 billion in bonds to fund housing for the homeless and veterans with mental health and substance use disorders.

*Our Republic was supposed to protect the rights of the minority from the majority. Now this unfair tax on the time and labor of those who earn over a million dollars is routinely accepted.*

*Proposition 1 would increase state indebtedness for a problem that is only increasing despite billions of dollars of state expenditure. Perhaps our collectivist state government does not promote the general welfare.*

*Our founding fathers based the Constitution and Bill of Rights on individualism which has been largely replaced by collectivism. Learn more at [The Chasm \(aweb.page\)](#).*

### Worst Bills of 2023

From CFRW files October 2023

Each year Carl Demaio, the Chairman of **Reform California**, picks some of the **worst bills passed** by our State legislature. Here are his top 10 picks for 2023.

**1. Giving Free Lawyers for Illegal Immigrants (State Budget):** Gavin Newsom and California Democrats are continuing to divert billions of dollars in state taxpayer funds to provide a wide range of free services and benefits to illegal immigrants – including completely free healthcare. To add insult to injury, California Democrats are using \$60 million in state taxpayer funds to hire free lawyers that illegal immigrants can use to sue our own government as well as fight deportation.

**2. Taking Children Away from Parents (AB 665):** Newsom and state Democrats passed AB 665 which makes it easier for children as young as 12 to be taken away from their parents. Existing state law required that a child could only be removed and “emancipated” if a licensed therapist or health professional determined that abuse or neglect was occurring that posed a threat to the child in the parents’ home and the child was mature enough to govern their own affairs. AB 665 removes any need to show abuse, neglect, or a threat – and allows even an “intern” or “trainee” to make the decision! One of the most reckless and anti-parent bills ever conceived is now law.

**3. Advancing Government-Run HealthCare (SB-770):** California state government intrusion into its healthcare system has already resulted in a massive price spike for care, but that is about to get much worse as the state initiates a complete government takeover of all healthcare with SB 770 approved by Newsom and California Democrats. SB 770 instructs state officials to begin negotiations on obtaining a federal waiver to redirect all federal health care funds (including from Medicare and other federal health programs) to support an untested government-run healthcare system costing \$500 billion annually! Next step: a ban on private health insurance and a massive tax hike!

**4. Creating a More Toxic Workplace (SB 497):** California labor regulations already have made our state the worst place to create jobs in by imposing high costs and high risks, but Newsom and California Democrats approved SB 497 to exponentially increase the risk to all businesses by changing the burden of proof on worker retaliation cases. Under SB 497 any disgruntled employee will be assumed to be a victim of retaliation and the employer has very little chance of protecting itself from false retaliation claims. In addition, Newsom and California Democrats made it harder for businesses to justify creating jobs in our state by passing SB 363 to limit the use of arbitration to resolve disputes and AB 594 which weaponizes local city attorneys to use their taxpayer-funded lawyers as free legal attack funds for local labor unions targeting small businesses.

*(Continued on Page 5 Column 1)*

## Marin Republican Women, Federated

(Continued from Page 4 Column 2 – Worst Bills 2023)

**5. Stripping School Boards of Curriculum Powers (AB-1078):** Newsom and California Democrats approved AB-1078 they say is designed to stop book banning in California schools. Yet this bill will only serve as an infringement of local control over curriculum decisions and limit the ability of parents and communities to have a say in what is taught in schools.

**6. Eliminating Discipline in Schools (SB 274):** Newsom and California Democrats are fostering a culture of lawlessness by banning any suspensions of students who engage in “willful defiance.” California Democrats say it is “racist” to punish unruly students who disrupt the classroom with a simple suspension but are always looking for ways to charge parents with crimes if they speak out too forcefully at school board meetings. Expect the teacher shortage in California to get much, much worse as good teachers leave the profession because they cannot control unruly disruptors in the classroom.

**7. Making it Easier to Release Criminals (SB-81):** With property and violent crimes continuing to spike across the state, Newsom and California Democrats approved SB-81 to allow early parole for prison inmates regardless of their behavior in prison, chances of reoffending, or its impact on victims.

**8. Infringing on Your Right to Self-Defense (SB 2 and AB-28):** Newsom and California Democrats have created a crime wave with their other negligent policies, but now they want to make it harder for you to defend yourself by imposing a massive excise tax on guns and ammunition – as well as severely restricting your right to concealed carry. Both laws are unconstitutional on their face, but state politicians have shown zero regard for following well-established civil rights rulings.

**9. Setting the Stage for a Carbon Tax and an SUV Tax (SB253 and AB251):** Expect two new big taxes to come to California soon under two new laws approved by Gavin Newsom and state Democrats. SB 253 establishes a carbon emission reporting requirement on all businesses and sets the stage to then tax companies based on their carbon footprint – a key element of the Green New Deal. AB 251 initiates a state examination on SUV impacts to justify the imposition of a new SUV tax – but it will be called a “fee” for the so-called “impacts” that AB 251 will document.

**10. Repealing Prop 13 and Raising Taxes (ACA-1 and ACA-13):** Newsom and California Democrats are supporting two laws (now being presented to voters) to gut Prop 13 and make it easier to raise your taxes. ACA-1 reduces the voter approval threshold from a two-thirds supermajority to just 55% for local general obligation bonds and special taxes. ACA-13 is designed to block the California Taxpayer Protection Initiative which itself would protect and strengthen Prop 13.
