Luncheon Meeting, Wednesday, Mar. 23rd

The Club Restaurant at McInnis Park, 350 Smith Ranch Road, San Rafael
11:30 am – 1:00 pm

Speaker: Lisa Disbrow, Educator, Activist & Curriculum Expert

Topic: Rescuing Our Children From Political Extremism: *How the K-12 System is Fostering an Environment of Political Extremism & How We Can Fight Back*

Lisa Disbrow is a passionate and dedicated educator who has spent decades working within a system that has become increasingly more polarized, more politicized and less education focused. Now, after thirty years within the system, she is willing to speak out about the harsh realities of the modern K-12 system. As a high school student in the Richmond Unified School District in the late 1960s Lisa witnessed the violent, racially charged riots, that fundamentally changed the culture and politics of Richmond.

Later, Lisa went on to study Spanish literature at Cal State Hayward and received an ESL and Administrative credential with a focus on K-8 students. For the past 34 years Lisa has been in front of the classroom. She has taught ESL to adult learners and kindergarteners. She truly believes that with the right teacher any child can succeed. Unfortunately, our school system has been hijacked by political ideologues and she now believes the best way to protect our children is to speak out against the abusive political agendas hidden behind innocuous labels such as “Comprehensive Sexuality Education,” “Social Emotional Learning,” “Critical Race Theory,” “Institutional Racism,” and “Culturally Responsive Instruction/Discipline/Grading/Classroom Management.” Please join us and Lisa Disbrow to learn more about the hidden agenda behind CRT, how politically infused curriculum is shaping and distorting the education system, and how we can fight back.

President's Report

Should any organization involved in illegal activity have all funding pulled, tax exempt status removed, and be prosecuted?

Rep. Lance Gooden, R-Texas, is sounding the alarm about what he says is a secretive and "very organized" operation to bring illegal migrants into the U.S. and facilitate their transport across the country. On February 3, 2022, Rep. Gooden introduced legislation to remove federal funding from U.S. nonprofit organizations that help facilitate illegal entry into the United States. The Stop Federal Funding for Human Trafficking and Smuggling Act would direct the head of the Office of Management and Budget (OMB) to require federal contracts and grants to be contingent on organizations certifying that they are not involved in either human trafficking or human smuggling, fraud, or bribery at the U.S. border.

"Taxpayer dollars should not be subsidizing a mass invasion of our country and it is time to stop this corrupt operation." Gooden asked, "Are private corporations or foreign organizations funding this travel?" Mark Brnovich, Arizona's Attorney General, warned, "What is occurring at our border is nothing short of chaos and lawlessness, and Americans are paying the price for these intentional and reckless policies--with their safety and their lives. In 2021, at least 46,000 unaccompanied children were transferred in our country's interior. More people are crossing our border every day..." North Carolina Sen. Thom Tillis wrote, "Permitting the use of ICE arrest warrants as travel documents is at best illogical, and at worst a serious threat to our nation's homeland security."

Membership Report

We have been a bit remiss in not publishing an official mention of our newest members. Please welcome as regular members **Cheryl Alioto, Paulette Borg, Diedra Carson, Lacey Dias, Elizabeth Dunia, Jaime Jensen, Christy McCampbell, Barbara McVeigh, J.R. Nuerge, Lina Pritchard,** and **Thalia Stratton** and new associates **Tief Jensen, Pam McCart, and Susie Morlock.** At our luncheons or other activities, please find one of these members and help them get to know us and the activities we embrace. Whether you are a new member or a returning member, we welcome you and thank you for supporting our club in this exciting election year.

March is known for St. Patrick's Day, as well as the Ides of March. The **Ides of March** interestingly was marked by several religious observances and was notable for the Romans as a deadline for settling debts. With that reminder from the past, we would like to remind those of you who missed the February dues payment that membership renewals are due and are \$45 for regular members and \$25 for associate members (regular members of another club, gentlemen, and non-citizens). I might remind you that we have quite a few associates from other clubs and our Members are encouraged to reciprocate and give our support to their club also.

The Membership form is on Page 7 of this newsletter. Thanks to those of you who have already paid. For those who have not, please send your check payable to MRWF to Elise Vitale, 75 Kipling Drive, Mill Valley CA 94941.

Member Birthdays

Birthday wishes from the leprechauns and fellow club members to our regular members **Margarita Dreyer, Mary Hayes, Beverly Heinecke, Patricia McEntee, Barbara McVeigh, Judith Walker Weissman,** and associates members **Marianne Haas, Elinor Lacy, Donna Pfeiff, Joe Tassone, Betsy Solis, and James Redpath.**

Totalitarianism vs. Americanism

Totalitarianism is a system of government where a single-party or person has complete control over all aspects of a society. The American system of government is just the opposite. Thanks to our well-read and informed founders, our system was designed so that "we the people" are in control of ourselves and in control of our government.

Aleksandr Solzhenitsyn famously said that one of the bigger mistakes people make is to assume totalitarianism cannot happen in their country. Rod Dreher's book Live Not By Lies supports that idea and says Americans today are making the mistake of "sleepwalking through the erosion of our freedoms." As evidence, Dreher provides the "wokeness" that has infiltrated our institutions of higher learning, public schools, media, sports, entertainment, the military, medicine, and corporations. When people see that only one opinion is tolerated and that opinion is not theirs, they become afraid to say what they think for fear of losing their jobs or being publicly ridiculed—a situation he refers to as "soft totalitarianism."

Totalitarianism - whether soft, subtle, or otherwise - seeks to control the individual, our traditions, and family bonds. It will eventually turn hard. It's not healthy and it's not Americanism.

Satellite Club

A special "Thank You" to Cindy & Chuck Eisenhower for hosting our Satellite Club in February. They have a lot on their plate right now, and they were so kind to open their beautiful home to us. It is always special to be in a Member's home, away from prying eyes—and liberal ears—and be able to discuss conservative issues. We all need each other's support for the various projects Marin Republican Women are involved in, and our Satellite evenings give us just such a forum.

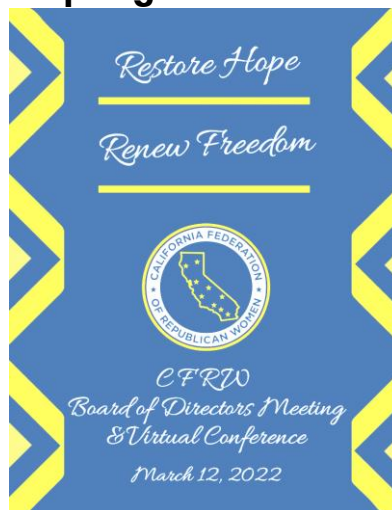

Thank you also to everyone who brought food and drinks to share. Some of us are quite the cooks! Have a good month everyone and we hope to see you at our March 25th Satellite Club evening.

Voter Registration February Report

Two very important days are coming up. We've scheduled Voter Registration again at the Village (near Nordstrom) on **March 19th** and again on **April 9th**. This is our time to get some Democrats to make a choice between Republicans and Democrats. Just Asking—Are they satisfied that gas has gone up over \$5.00 and soon will be more? Are they happy to see the empty store shelves bare and what they can buy has gone up in price? Are they happy that we are on the brink of World War Three if Putin keeps up his activity of taking over a legally elected government in a nearby Country? Are they happy that China is taking over OUR country? We'll see what they say.

We vote in a June 7th Primary election and in the November 8th General election. We hope we can vote some of those rascal Democrats out of office. Most of all, we must work mightily at our local elections to get Marin conservatives elected to School Boards, to the Board of Supervisors to replace Arnold and Connolly, and to the State legislature to replace Levine and McGuire.

It should be fun at our Voter Registration table and I hope you can join us.

Legislative Report

By Ruth Holly – MRWF Legislative reporter

Bureaucrats know best?

Fortunately, **AB 1400**, the proposed California single-payer healthcare plan has been laid to rest during this election year. This has not stopped our tenacious Democrat office holders led by Dr. Richard Pan, State Senator from Sacramento, from proposing more medical tyranny.

AB 1993 would require that employers obtain proof of Covid 19 vaccination for all employees and independent contractors. The bill does allow for CDC-approved medical exemptions and for religious belief exemptions. Medical exemptions are rarely given, but can be obtained for a severe allergic reaction to the vaccine or for a history of the officially acknowledged post-vaccination injuries of myocarditis and pericarditis.

AB 2098 threatens the medical licenses of physicians who disagree with the official Covid 19 narrative. Disagreement with the CDC or FDA is renamed “unprofessional conduct,” so that free-thinking physicians can more easily be disciplined by the Medical Board of California

AB 1797 would establish an immunization registry to facilitate central control.

SB 866 would allow children 12 years and older to consent to any state promoted vaccination, including those under emergency use authorization.

SB 871 would add the Covid 19 vaccine, even if still under emergency use authorization, and any future government approved vaccinations to the list of required vaccinations for school attendance. There is no personal belief exemption for the 10 required vaccines, and this bill would remove this exemption for Covid 19 and all future vaccines.

Don't exercise your rights on public land?

SB 915 would eliminate gun sales on public land such as fairgrounds.

Will common sense prevail?

SB 890 proposed by Republican State Senators Nielson and Borgeas would expedite already approved water storage projects allowing water from “atmospheric rivers” or wet years to be stored for use in dry years. Proposition 1 passed in 2014 established a 2.7-billion-dollar bond to increase water storage. According to the California Federated Republican Women Capitol Update of February 10, 2022, not a single project allocated money by the California Water Commission under this proposition has been completed.

Book Club

Treat yourself to a book for the times; your eyes will open wide.

Is Atheism Dead by Eric Metaxas

Fifty years ago, the cover of Time magazine asked the question “Is God Dead?”. On the edition's fiftieth anniversary, Eric Metaxas published in response his book, *Is Atheism Dead?*. This may be one of the most interesting books I have read. The book is divided into three basic sections: the science, the confirmed history and the more famous debates among past scientists and intellectuals about the existence of God and the beginning of life.

I am a well educated woman but very much of what was taught as “science” when I was young is no longer held to be true. For example, PBS's favorite scientist, Carl Sagan, taught that there were so few requirements to create life that it could likely be found everywhere and lots of people went looking. Scientists have since proven that there are, in fact, so many necessary conditions for life to begin and be sustained that the chances are absolutely infinitesimal that it exists elsewhere. The scientific background Metaxas presents is more than fascinating, including the roles of the sun and the planets at a minimum. The Creation described in the Judeo-Christian Bible and the Big Bang Theory are remarkably alike. Archaeologists have uncovered an amazing number of sites that conform perfectly with the story of the Bible and New Testament. His discussion of many famous atheists shows that most of them could not rationally support atheism and fell off that bandwagon eventually because the world is really too remarkable to be random and “evolved”.

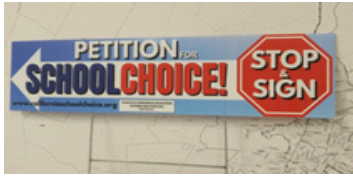

Whether the reader is religious or not, this is a very good read where you will learn and think a lot.
